Event Experience

The screenshot shows a Brightcove event landing page for the "Modus Race 2017". At the top, the "MODUS CYCLES" logo is displayed. Below it, a large image of a cyclist in motion is shown. The main title "Modus Race 2017" is overlaid on the image. To the left, the date "August 11, 2017" and the location "Modus Cycles" are listed. A live video player in the center displays a countdown timer: "00 28 08 43 27" (Months, Days, Hours, Minutes, Seconds). Below the video player, a call-to-action button says "Mark Your Calendars for Modus Race 2017" with "Remind Me" and "Share" options. On the right side, there's a sidebar titled "Race Videos" featuring two thumbnail images: one of a bicycle and another of a cyclist riding. Below each thumbnail is the text "Lorem Bicycles". The sidebar also includes a section for "Tweets by @Brightcove" which lists several tweets from the Brightcove account, including links to webinars and articles, along with social sharing icons.

Description

Experience Status

Before You Get Started

Before You Get Started

- We recommend doing a few things before you create an experience:
 - Create a dedicated player
 - Organize your video content
 - Determine the type of experience to create and which template to use

Creating a Dedicated Player

- Having a dedicated player makes it easier to track Gallery activity in analytics
- **Portal, Event and Landing Page Experiences** - Use the account-wide default player configured in Gallery settings
 - You can override and select a different player for each experience
- **In-Page Experiences** - Player selected as part of the experience properties
- Created using Players module in Video Cloud Studio

Hands-on Task: Creating a Player

For more information on this topic:

<https://support.brightcove.com/video-cloud-basics-creating-player>

Organizing Your Video Content

- **Portal experiences** - Organize videos into Collections
 - Playlists
 - Video tags, custom fields, search criteria
- **In-Page experiences** - Can display a playlist or single videos
- Think about how your content will be organized/grouped
 - Are your videos tagged properly?
 - Create playlists to organize content
- Having your content organized will save you time

Organizing Your Video Content

- Portal experience

Overview of Gallery Portal Templates

This topic provides a reference to all of the Portal templates that are available.

Note: For information on the In-Page Experience templates, see [Overview of Gallery In-Page Experience Templates](#).

When you create a new Gallery experience, you will choose a template which controls the overall look and feel of the experience. Selecting the type of experience you want to create will filter the list of templates.

Create Experience

All Portal In-Page Landing Page Event

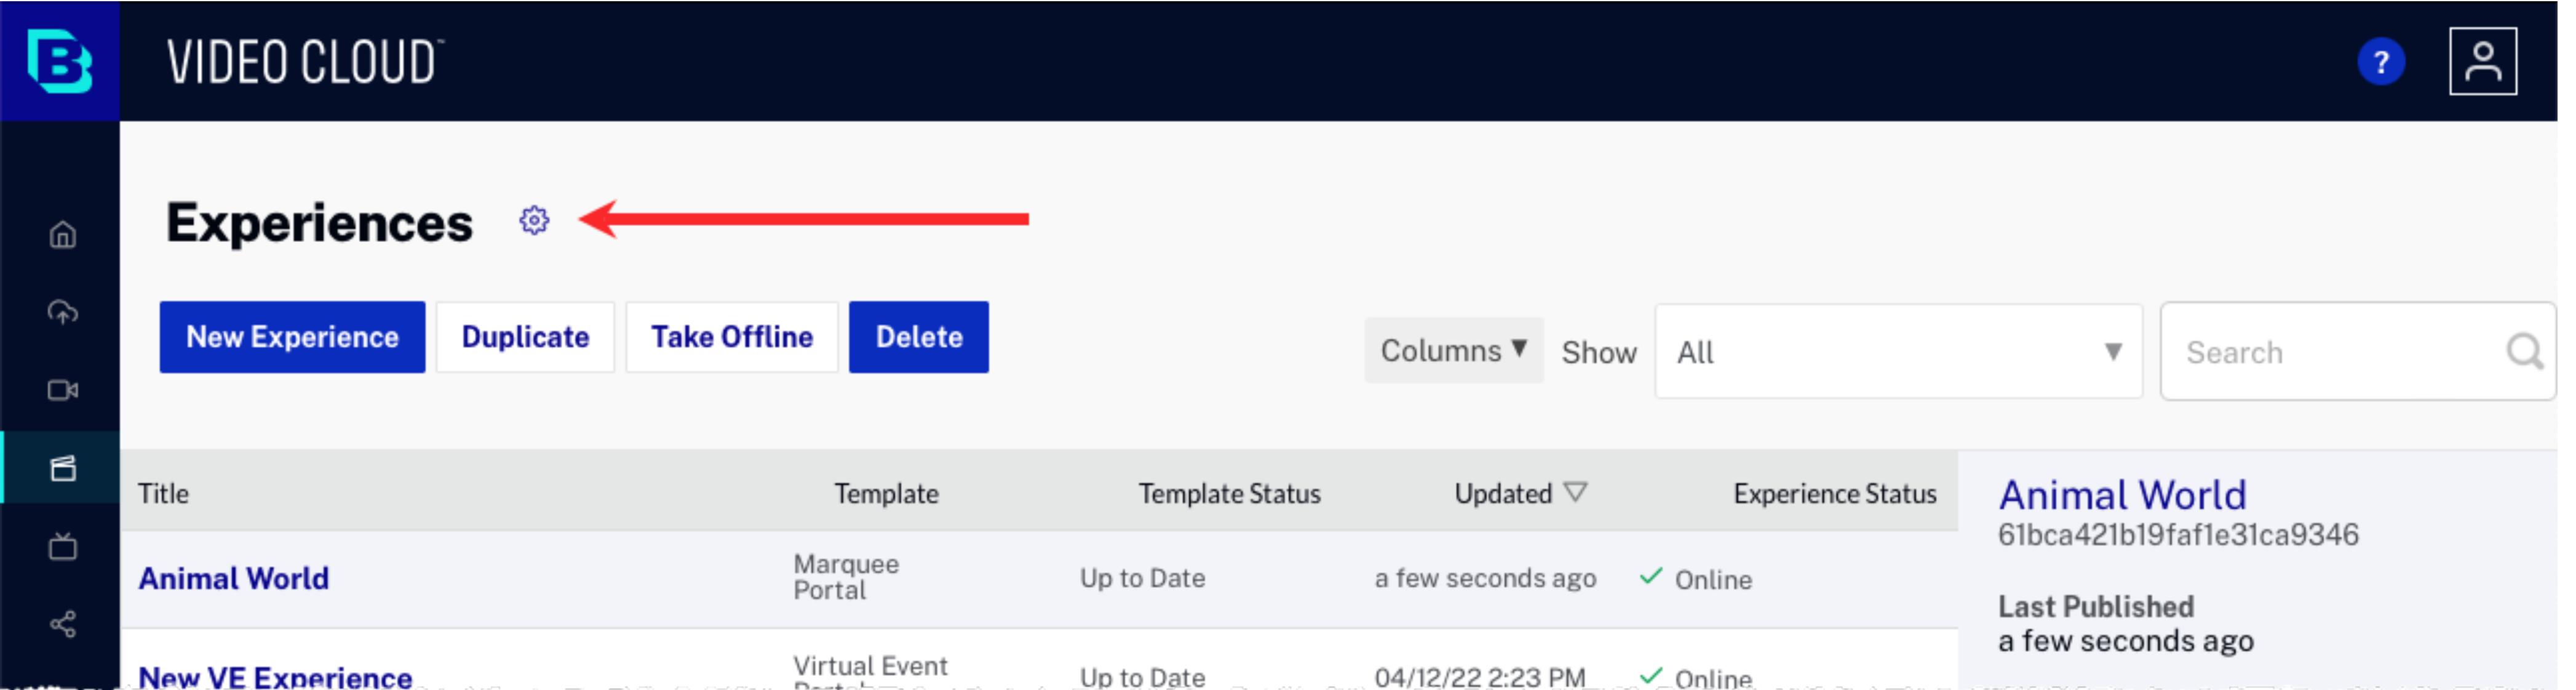

Portal In-Page Landing Page Event

When clicking **Portal**, the template chooser can be used to filter the portal templates based upon your site requirements.

Configuring Gallery Settings

Configuring Gallery Settings

- Click Settings icon on Gallery homepage

The screenshot shows the Brightcove Video Cloud interface. The top navigation bar includes a logo, 'VIDEO CLOUD', a help icon, and a user profile icon. On the left, there's a sidebar with icons for Home, Upload, Create, and a folder. The main content area is titled 'Experiences'. A red arrow points to the gear icon next to the title 'Experiences'. Below the title are buttons for 'New Experience', 'Duplicate', 'Take Offline', and 'Delete'. To the right are filters for 'Columns', 'Show All', and a search bar. The main table lists two experiences: 'Animal World' and 'New VE Experience'. The 'Animal World' row shows details: Title 'Animal World', Template 'Marquee Portal', Template Status 'Up to Date', Updated 'a few seconds ago', Experience Status 'Online', and a link to 'Last Published a few seconds ago'. The 'New VE Experience' row shows a similar structure.

Title	Template	Template Status	Updated	Experience Status
Animal World	Marquee Portal	Up to Date	a few seconds ago	✓ Online
New VE Experience	Virtual Event	Up to Date	04/12/22 2:23 PM	✓ Online

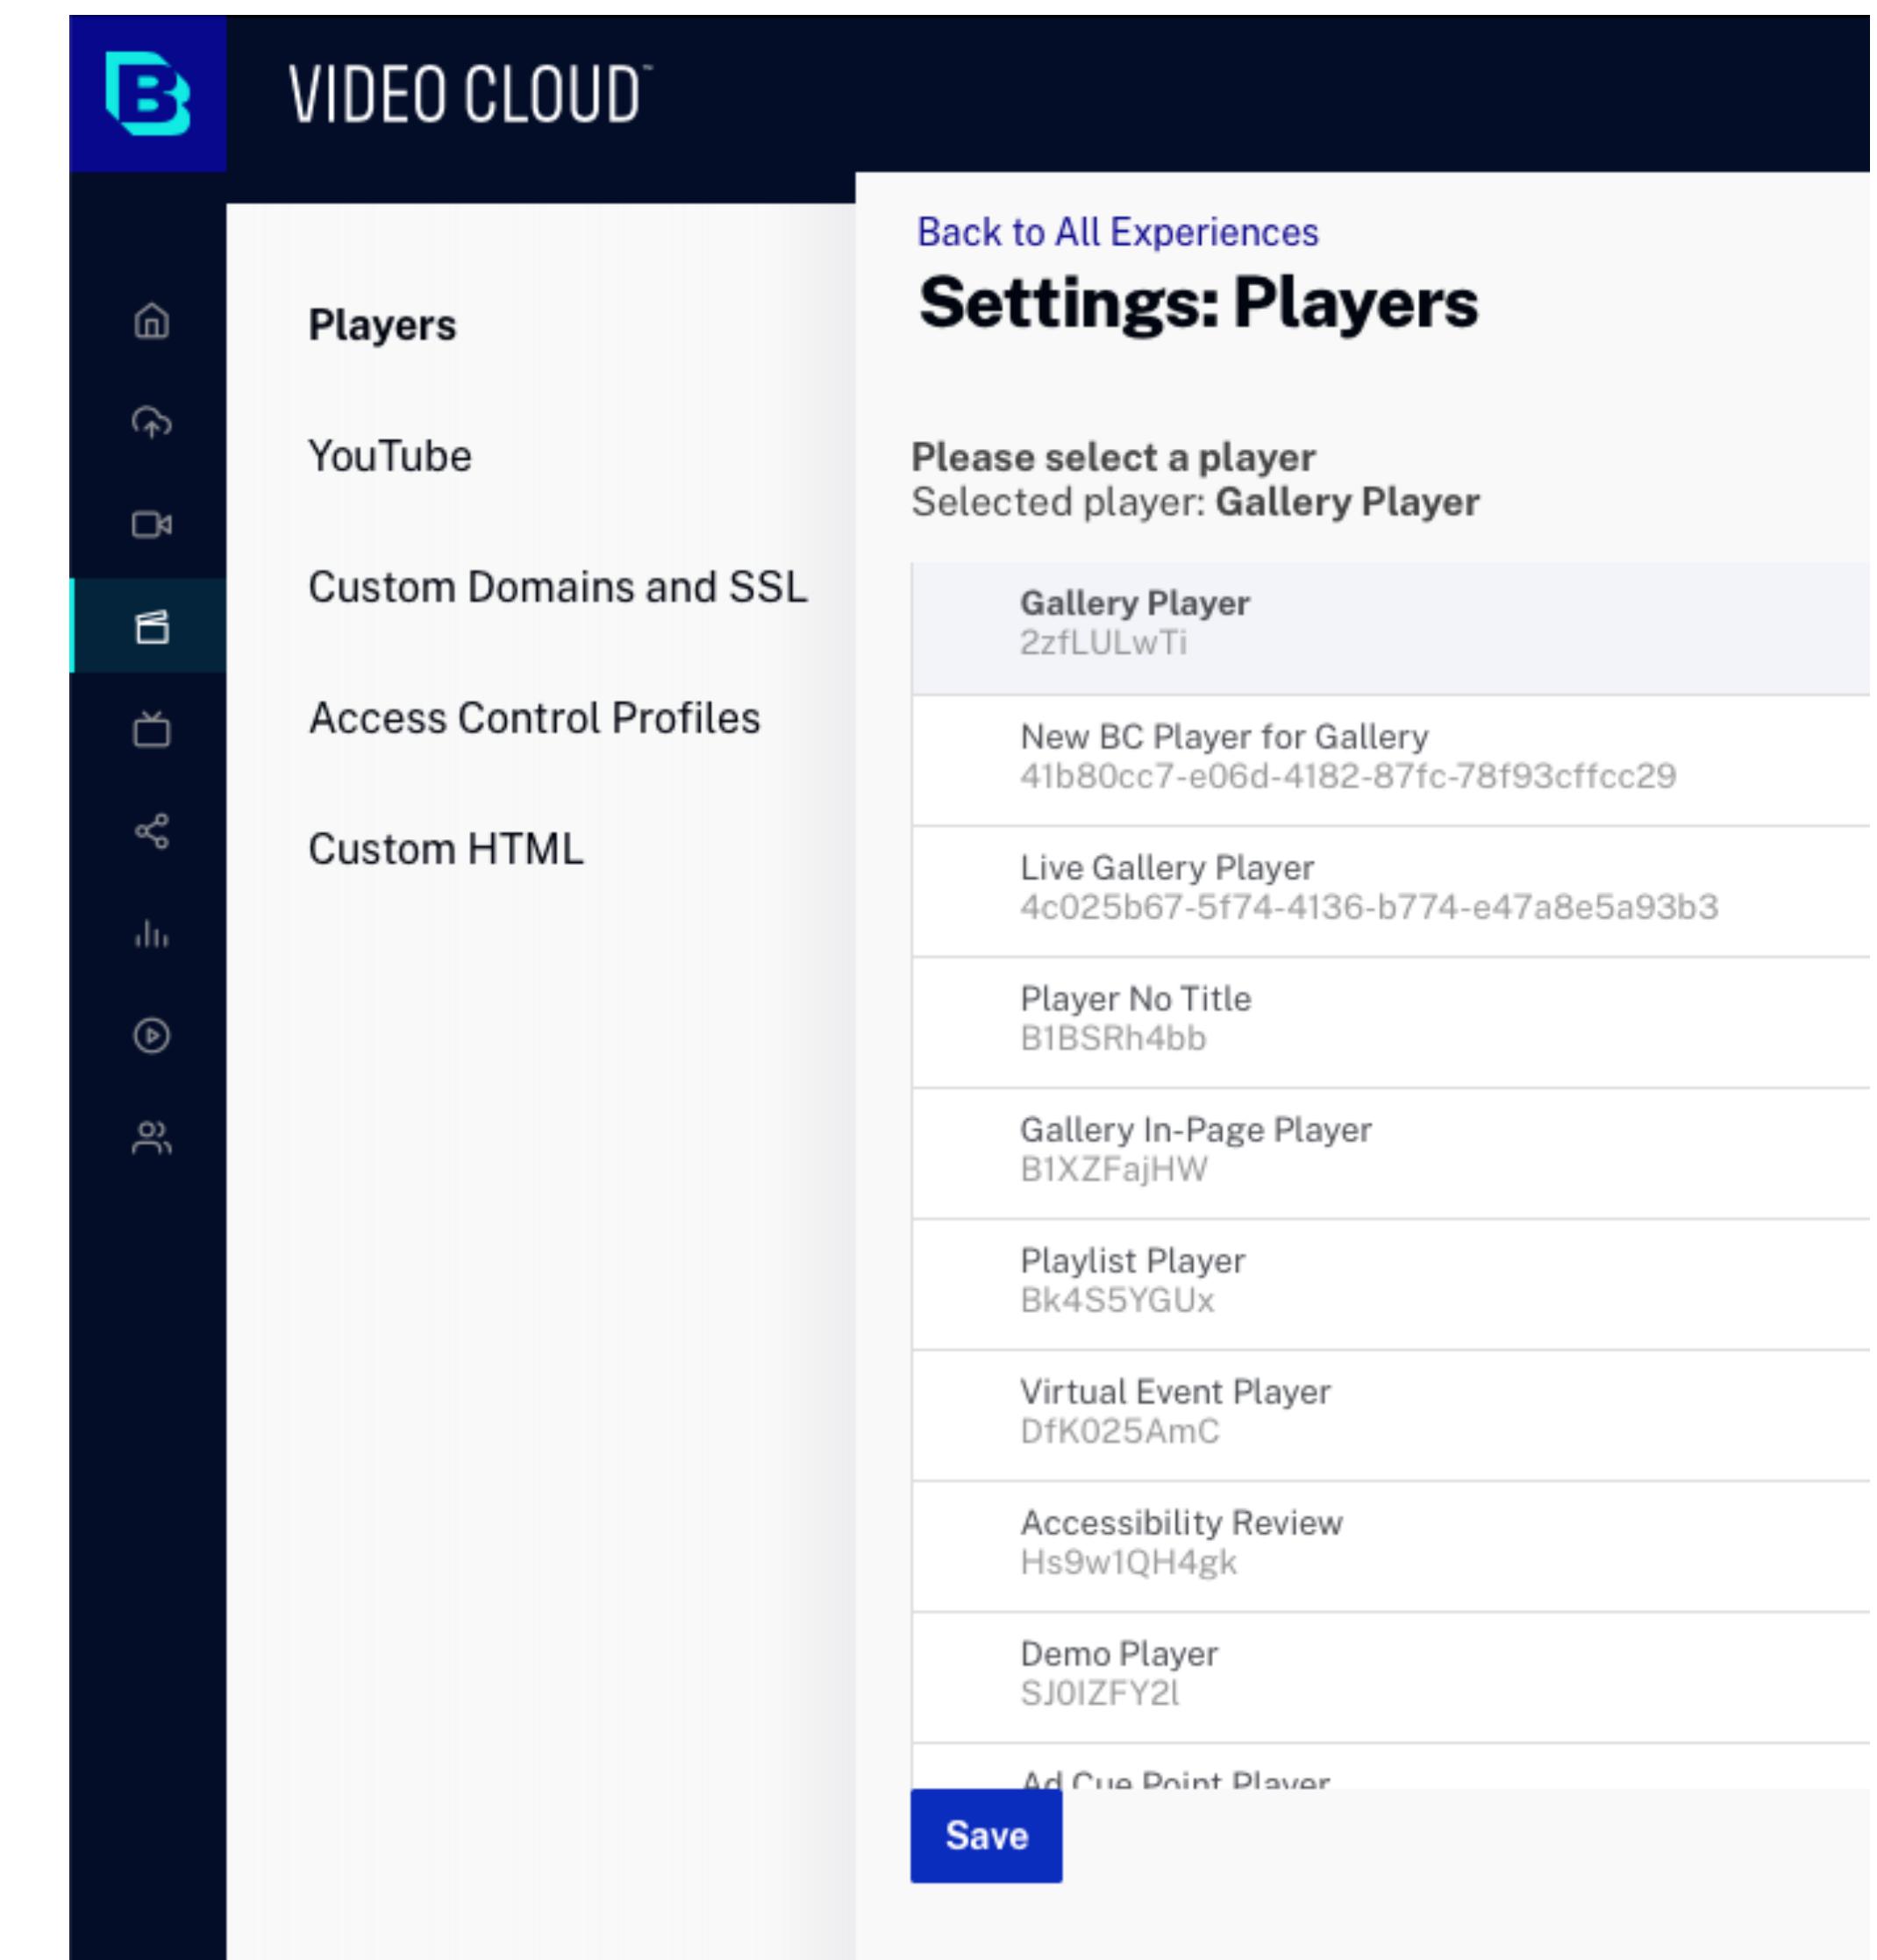

Configuring the Account Wide Default Player

- Click **Players**

- Select a Player

- This player will be used by default on all Portal, Event and Landing Page experiences

- A site-level player can also be selected

Creating a Custom Domain

- Click **Custom Domains & SSL**

- Brightcove provided domains
 - bcvp0rtal.com (assigned by default)
 - brightcovegallery.com
 - gallery.video
- Custom
 - Requires changes to CNAME record

[Back to Custom Domains and SSL](#)

Create Custom Domain

Select domain option

brightcovegallery.com gallery.video Custom (e.g., videos.mysite.com or www.mysite.com)

Enter custom domain *

.brightcovegallery.com

Enforce SSL on this domain (recommended) [Learn More](#)

Enable redirect

[Cancel](#) [Save](#)

Other Settings

- **YouTube** - Connect to a YouTube account
- **Access Control Profiles** - Control access to a Gallery site
- **Custom HTML** - Use custom HTML so headers and footers more closely match the look and feel of your corporate sites
